

PLM FOR YOUR INNOVATIVE BUSINESSES

The Propel Innovator's Edition is the only Product Lifecycle Management (PLM) software solution that provides innovative businesses the robust enterprise PLM capabilities that they want but with simpler configuration for their immediate needs.

For just \$1500 per month for 10 users, customers can use the core PLM features they need, including bill of materials (BOM) management, manufacturing data, graphical redlines and change management.

The Innovator's Edition also offers a quick start implementation that gets users up and running in less than one week.

THE PROPEL INNOVATOR'S EDITION OFFERS FAST GROWING BUSINESSES THE FOLLOWING BENEFITS:

- **Affordable enterprise PLM features** at a monthly cost of \$1500 for 10 users
- **Fast and easy implementation** for \$2500 can get users up and running in just 1 week, plus Propel's intuitive and modern UI drastically to reduce training time
- **Out-of-the-box** attributes, change workflows, product categories and lifecycles make it easy for even the casual user to collaborate on complex product information
- **Custom fields** and drag-and-drop layouts allow businesses to manage any information needed for product success, including hardware, services or marketing collateral
- **Configurable dashboards** allow for instant real-time drill-downs
- **Keep your data safe and secure** with Propel's modern cloud PLM solution, which is built on the award-winning Salesforce platform
